

The Wilfrid Laurier Women's Softball Program is looking forward to another fall season of success in 2010. Over the past three seasons, the team has an overall record of 73-20 being the most celebrated university softball program in the country capturing a Provincial Gold, Provincial Bronze, National Silver, and last year as the host of the 2009

Intercollegiate Championships were crowned the *National Champions* defeating the University of Saskatchewan 7-3 in the thrilling gold medal game. This year marks a new beginning of sorts at Laurier, with many members of the recent championship seasons now graduated.

We look forward to a great incoming class to carry the tradition of excellence to the softball program in 2010. I encourage you to come out to see some fantastic women's softball this fall with some special events planed for the remainder of the home schedule. Please visit our website for full weekend updates or visit us on Facebook at "Laurier Fastball."
